

# 2022/2023 DOOR GUIDE

# YOUR HOME

Homes come in every shape, size and design. So, whether your home is old or new, big or small, Contemporary or Colonial, finding a glass style that compliments what you have is important.

Our designers understand this. They have created designs that are simple to intricate, clear to obscure. This is where solid metals, textured and beveled glass come together to create true works of art. Everyone is different and so are our designs.

Let Trimlite help you create a front entrance that will be the focal point of your home and a true reflection of your taste and style. So now, it's your time to choose.

# PRIVACY GUIDE

Trimlite offers an extensive line of designs to choose from and the degree of openness or obscurity varies considerably. To help your decision making process we have photographed each design under controlled circumstances so that you can see the difference. With each picture, we have included a number which represents the 'Privacy Level' for that particular design. This number will be referenced on the individual product page as well. Note: this 'guide' is subjective. It should only be used when comparing Trimlite designs.

KNOW THE BEAUTY OF INNOVATION

# SPECIFICATIONS

## CONSTRUCTION

- Handcrafted, our decorative glass panels stay true to their stained glass roots.
- Our selection of premium art glass and bevels, which makes our designs come to life, are hand cut and fitted. Careful consideration is given to choosing textures, complementing elements are crucial to a design's given appeal.
- Using solid metals, where all of the joints are soldered by hand, ensures the panels will be strong enough to withstand daily use.
- Once assembled, the panel undergoes a thorough cleaning and inspection process. This attention to detail is our assurance of quality to you.

## GLASS VARIATION

Decorative pattern glass is handmade. Through this process, slight imperfections or discolourations are inherent characteristics of all handcrafted glass. Bubbles or seeds, slight surface flaws and subtle variations in textures vary depending on the pattern. Some glass patterns, like Swirl and Drawn, are more likely to have these inclusions. They are not considered defects.

Swirl Glass Detail

Drawn Glass Detail

## CAMING OPTIONS

Hand soldered metals in 3 finishes. See individual product pages for availability.

### Brass Caming

Subtle gloss finish that defines luxury and style.

### Patina Caming

Black satin finish offers a rustic or antique look to your home.

### Zinc Caming

Brushed chrome appearance brings a contemporary look to your entrance.

# INSULATING SYSTEM

All Trimlite Decorative Doorlites are made with Super Spacer® Cushion Edge™, a flexible, U-shaped, silicone foam tape product used to wrap around and cushion our center decorative panel. Featuring a vapor barrier backing, the product used in combination with Hot Melt butyl, provides a superior Warm-Edge seal.

## PERFORMANCE FEATURES

- Warm-Edge Benefits: Superior silicone foam insulation, low thermal conductivity
- Silicone Foam Features: Excellent UV resistance and extreme temperature performance
- Dual-Seal Performance: Chamfered corners for increased sealant depth
- Tempered Safety Glass for your piece of mind
- Low E\* with Argon Gas for your comfort

All Trimlite Doorlites are certified by the National Accreditation and Management Institute, Inc. (NAMI).

All Trimlite products are energy tested. Consult your dealer for specific energy ratings.

**Warranties:** Our products are covered by separate limited warranties. Please contact your dealer for more information.

SuperSpacer<sup>®</sup>, TrueWarm<sup>®</sup> and Cushion Edge<sup>™</sup> are all registered trademarks of QUANNEX BUILDING PRODUCTS.

\*Our doorlites are available with Low E and Argon. However, some exceptions may apply. Contact your dealer for more details.

## BALANCING PRIVACY AND DESIGN

Retro is defined as remaking the past. Our Retro Series is an extension of our 1-Lite French Doors that have been remade specifically for our Exterior Doors. We selected our glass designs that balance privacy and design, as we believe your doorlite should always be elegant and safe.

Our glass designs pair perfectly with our standard frame options. And, like decorative designs, these come standard with Low-E and Argon for additional energy efficiency. Although these products may seem new, they are remade for you.

Glass Size: 2210 Sandblast  
with Direct Set Sidelites.

### Need more performance in your doorlite... Consider Cardinal LoE<sup>2</sup>-272 Glass

Available in the clear and white internal grid options, the insulating value of Cardinal's **LoE<sup>2</sup>-272** patented coating is nearly double that of an ordinary insulated glass unit. In winter, **LoE<sup>2</sup>-272** reflects heat back into the room. In summer, it rejects the sun's heat and damaging UV rays. The coating is virtually invisible to the eye yet blocks 84% of the sun's harmful ultraviolet rays. In fact, **LoE<sup>2</sup>-272** is the clearest, highest performing glass you can buy.

Some items are special order. For a complete list of sizes, glass and grid options available in your area, contact your dealer for more information.

## FIBERGLASS DOORS

Our fiberglass entry doors with exclusive Hydroshield feature fiberglass reinforced door skins, full-length composite stiles, and composite top & bottom rails to prevent water infiltration on all six sides.

## FULL LENGTH COMPOSITE TOP AND BOTTOM RAILS

Additional non-porous protection keeps water from seeping into the door and helps prevent the build up of mold or mildew.

## FIBERGLASS REINFORCED SKIN

Fiberglass is unmarred by the wear and tear of everyday use and is unaffected by moisture and humidity. Our doors will not rot, splinter or warp like wood, and won't dent or delaminate like steel.

## FULL LENGTH COMPOSITE STILES

All Plastpro fiberglass entry doors feature full length composite stiles to prevent water infiltration into the door and ensures our door will never warp, rot, or rust.

## Clavos & Straps

- Easy to Apply
- Scientifically Formulated Adhesive (unique to fiberglass doors)
- Masterfully Handcrafted Premium Metal Alloy
- Tough & Durable Powder Coat Finish

Our hinge straps are handcrafted from durable aluminum that resists rust and discoloration.

1-1/2" & 1-1/4" round or square decorative black metal.

## Dentil Shelves

Dentil shelves are made of lightweight high density polyurethane (HDP). It is lightweight which makes it easy to install onto the door. It is weather-resistant and will not warp, rot or crack. Its design compliments the Plastpro door grain patterns. Available in Woodgrain, Smooth, or Fir Grain finishes.

### Smooth Skin - 4 Blocks

### Woodgrain - 4 Blocks

### Fir Grain - 4 Blocks

# N600 Series Steel Door Collection

## FEATURES

## BENEFITS

Finger jointed knot-free pine, protected with 2 coats of white paint on 1-3/8" hinge stiles and 13/16" rails.

Better protection, enhanced aesthetic, resistance and durability, even with 22" x 64" triple-glazed door glass.

G-40 hot dip galvanized steel.

Long lasting rust resistance.

Full selection of XE High Definition steel door panels.

Improved aesthetic appearance and accepts all Doorlite sizes.

16" wood lock block.

Accepts middle and high-end handle sets and more flexible for centre line locks.

Textured polyester white 141.

10 year warranty without painting. Matches our paint-free Doorlite frames.

J-Bend roll formed steel edge on stiles.

Superior delamination resistance ensures door panels are squared and exact size.

HCFC free polyurethane foam insulation.

Provides higher thermal, dent and delamination resistance.

Warranty not prorated.

Full 10 years warranty on paint finish. Full 10 years warranty on manufacturing defects.
